## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Becker et al. (PN6195085).

In regard to claim 1, Becker et al. teach a mouse casing with liquid crystal display shell capable of change color (liquid ornament) and fluid shell, (see Fig.24-25), comprising a lower case, an upper case, and a liquid shell (liquid ornament), (see Fig.5, 6, 7, col.3 lines 20-26), the liquid ornament being so configured and sized that it could be firmly and visibly received in a hollow space generally defined in the mouse casing below a rear portion of the upper case to associate with the upper case without causing undesired change in an integral appearance of the

mouse casing or adverse influence on any function designed for a mouse, (see col. 8, lines 11-15).
